

Internship Opportunity Summer 2024

2024 NEVBD SUMMER INTERNSHIP PROGRAM

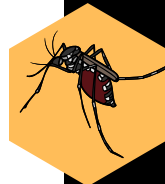

The Northeast Regional Center for Excellence in Vector-Borne Diseases is supporting a new **summer internship program for undergraduate students and recent graduates** in our region!

- Learn about tick and mosquito vectors of public health significance in the Northeastern USA
- Work with experts in vector-borne disease surveillance, control, and monitoring
- Gain skills in tick and mosquito collection, identification, data analysis, lab and field methods, and more!
- Explore career options in this field, and get a head start in public health.

10-WEEK PAID INTERNSHIP

- Internships begin early June 2024
- Interns work Monday - Friday full-time
- Stipends starting at \$7,000 to support living expenses and travel
